mitted him on a complaint of bribery. He will be held to await the action of the grand fury, which is now in session. It indicted and convicted he may be sentenced to five years' imprisonment and to pay a fine of \$1.800.

Wayne's son was receilly found guilty of selling policy slips in Jersey City, and Judge Hudspeth sentenced him to one year's imprisonment. The sentence had not been pronounced in court this morning when the elder Wayne appeared at the court and asked to see the Judge. The latter was conferring in the private room with Lay-Judges Hoffman and Henry, but when Wayne made a Masonic sign and asked for a private audience the other Judges left the room. Wayne then said to the Judge: "I am a Mason, Judge, and so are you. I want you to let up on my boy. If you will suspend sentence on him, it will be worth all the way from \$1,600 to \$5,600."

"Well," answered the Judge. Who wanted a witness to this statement, "Til have to consult one of the other Judges on this."

He called in Judge Hoffman, and in his presence Wayne repeated the offer. Then Judge Hudspeth became so angry that he struck Wayne, and immediately ordered his arrest. Later, Judge Hudspeth said publicly that anybody who attempted to bribe a judge or court in Hudson county must suffer the penalty of the law, Mason or no Mason.

donal traders and others, who were conident that the dividend would have to
be reduced. Subsequent events proved the
correctness of both theories.

There was a new and commendable departure in the method of making public
the Northwestern dividend, the railroad
dicials having communicated the decision
to the chairman of the Stock Exchange,
who made a public announcement from
the rostrum. Just previous to 12:30 P. M.,
the time agreed upon for the announcement, brokers gathered around the chairman, and everybody was on the qui vive
to learn the decision of the directors.
A rumor then got affoat that the regular
ate had been declared. This started a
tervous short into covering, and the purchases for this account led to a rise from
6% to 90. Chicago, Burlington and Quincy,
st. Paul, and other stocks, which are
teavily oversold, also moved up at this
time.

Then came the official announcement of

Then came the official announcement of the declaration of 1% per cent, quarterly in the preferred and 2% per cent, semi-annually on the common, the latter a eduction of a baif per cent for the six norths. Many brokers misunderstood the hairman, and thinking that the common friedend had been reduced to 1% per cent, old the stock. They quickly realized heir mistake, and bought back their tock. As a result, the common recovered 5 %. St. Paul, in the mean time, sold own to 5%, Rock Island to 61%, and hicago, Burlington and Quincy to 70. The amount of long stock sold after the at in the Northwestern dividend was wen out was a disappointment to the ears, who have been predicting that eavy liquidation would follow this action we the Northwestern directors. This disribed the shorts, and in the last hour to business a general covering movement tin. Sugar moved up from 87% to 89%; chware and Hudson from 127% to 129%, ew Jersey Central from 94% to 95%, cading from 15% to 164, Manhattan om 165 to 166%, and Big Four from 37% 284%.

upward movement was stimulated The upward movement was stimulated by reports that the anthracite coal companies had decided to reduce the output for December, and restore prices for broken egg, stove, etc. Other favorable factors were heavy receipts of gold by the sub-Treesury for the new bond issue, \$0,000,000 having been turned in to-day, making the total thus far \$20,000,000, the decision of Judge Bundy in the Nebraska maximum freight case in favor of the railroads, and the more favorable railway returns for the third week of November. Erie was heavy throughout, and sold down to 10%, with a raily to 11%. The annual report was very unfavorable, showing a decrease in gross earnings of \$2.184,597, and a deficit of \$1.151,407. 184,57, and a defleit of \$1,167,497, per cent per cultation closed strong, with inactive use anywhere from \$1 to 2½ per cent ther than on yesterday. Northwesternied \$2 on the day, New York Centra, Northern Pacific preferred \$3, and the \$15 per cent. Rallway bonds were equiar. irregular.

Just previous to the close at the Stock Exchange small lots of money on call were lent at 2 per cent. This is the highest rate in months, and the advance is due to the preparation now making to pay for the new government bond issue. The sales of listed stocks aggregated 124,000 shares, and of unlisted stocks, 25,000 shares.

CHICAGO PRODUCE MARKET.

CHICAGO PRODUCE MARKET.

CHICAGO, ILL., November 27.—Yesterday's buyers of wheat indulged in the pleasant occupation of realizing profits today, but the price got away from them before the close, although early in the day the decline met with stubborn resistance. The Liverpool cables were firm and higher, and the bulls were disposed at the start to press the advantage they had gained yesterday, but the futility of such a course made itself apparent in a very few minutes. Until moon the fluctuations were irregular, a firm undertone making itself felt, but after the publication of Bradstreet's report, which treated only of American stocks, giving an increase east of the Rocky mountains of 2307,000 bushes, the direction was clearly defined, the market having absolutely no support. The closing continental cables were all higher. May wheat opened at from 60% to 58%c., and closed at 50%c. Sec. under yesterday. Cash wheat was irregular. The close was nominally weaker, with the futures.

To-day's trade in corn was simply a repetition of what has taken place any day for a week past. The receipts loomed up, and the price fell down. The weakness of the tone of wheat may have had a part in forming the tone, but there was little or no inclination to follow that market on the railies. May opened from 18% to 85%c., sold between 65%c% and 45%c. and closed at 45%c%.—100%c. CHICAGO PRODUCE MARKET.
